

PARCC Comparison 2014-2015

Remember that AIMS does not have 8th grade math; rather our 8th graders take Algebra 1 which is normally a 9th grade class. Our 8th graders are actually compared to the state and surrounding school district's 9th graders. For more "fun with numbers" you can go to the Public Education site at <http://ped.state.nm.us/ped/index.html> and click on the PARCC Dashboard.
